

ALEX REED

Mid-Level Python Developer | Backend & Automation Focused

Chicago, IL | alex.reed.dev@gmail.com | +1 (312) 555-7643

github.com/alexreed-dev | linkedin.com/in/alexreed

- Professional Summary

Detail-driven mid-level Python developer with over 3 years of experience building APIs, automating workflows, and deploying data-driven applications. Strong background in backend development, RESTful services, and data processing. Comfortable working in Agile environments and collaborating across teams.

- Professional Experience

Python Developer - NovaTech Solutions | Chicago, IL (Jan 2022 - Present)

- Built and maintained REST APIs using FastAPI and PostgreSQL.
- Refactored legacy codebases into modular Python packages, improving readability and testability.
- Designed ETL pipelines using Python and Apache Airflow for client data migration.
- Integrated third-party APIs (Stripe, Slack, Google Sheets) into business tools.

Junior Python Developer - ByteForge | Remote (May 2020 - Dec 2021)

- Wrote automation scripts to handle Excel reporting and email parsing using Python.
- Created basic dashboards in Streamlit for internal project tracking.
- Participated in weekly code reviews and wrote unit tests using Pytest.

- Technical Skills

Languages: Python, JavaScript, SQL

Frameworks: FastAPI, Flask, Django (basic)

Libraries: Pandas, Requests, Pytest, SQLAlchemy

Tools: Docker, Git, JIRA, Airflow

Databases: PostgreSQL, SQLite, Redis

Other: REST APIs, Webhooks, CI/CD (GitHub Actions)

- Education

B.S. in Information Systems - University of Illinois Urbana-Champaign (2016 - 2020)

- Certifications

- Python 3 Programming Specialization - University of Michigan (Coursera)
- Backend Developer Nanodegree - Udacity (2022)

- Projects

API Service Wrapper - Built a modular service layer in FastAPI that connects multiple APIs for internal tools.

TaskSync - A personal automation project syncing tasks between Trello, Google Tasks, and Notion.

Data Uploader CLI - A command-line tool that validates and uploads CSVs to a database with logging and rollback.
